Dedicated to 5 year old Georgie Filer V whose motto was "**Be Happy"** and Eddie Pedrick my grandsons who drowned see www.swimminglysafe.com

In Special Reports this week's files cover: Mars life, New Life on Earth, and X-37 May Replace the Retiring Shuttle Fleet.

UnidentifiedAerial Phenomena were spotted over: Alabama, Arizona, Arkansas, California, Florida, Georgia, Maryland, Missouri, Nevada, Ohio, Tennessee, Texas, and Virginia.

UFOs were also observed in Argentina, Australia, Brazil, Canada, China, Greece, New Zealand, Nicaragua, the United Kingdom.

The purpose of these files is to report the UFO eyewitness and photo/video evidence that occurs on a daily basis around the world and in space. These Files assume that extraterrestrial intelligent life not only exists, but my hypothesis is that the over a thousand UFOs reported each month represent technologically advanced spacecraft conducting surveillance of Earth. I personally became interested in UFOs when I intercepted a UFO over England while flying for the US Air Force. Under Project Blue Book the US Air Force investigated UFOs for more than twenty years; and we continue this research. **I believe the God of the universe has spread life throughout the cosmos and UFO's are visiting us in ever-increasing numbers.**

The universe is full of wonders patiently waiting for us to grow wiser.

Special Reports

We now have rovers on Mars and spaceships around Saturn; it seems possible that aliens millions of year s older than us visited earth in antiquity and were regarded as gods, teachers, and rulers. Just open your eyes and your imagination and UFOs become a reality. NASA now admits there is ice and water on Mars, which essentially means life has existed and may now exist on Mars. Several astronauts, pilots, and intelligence officers are now revealing their own sightings.

Mars Life

Dr. Buchli writes,***top one measures over 1800 feet*** located at ***40 27'S 54 15' W*** Thanks toRichard Buchli D.V.M. Ph.D.

British scientists are preparing for the 2018 mission to Mars. The Leicester-based group is part of a team of British scientists working with the European Space Agency (ESA) on the ExoMars rover, one of two vehicles that will be sent to Mars in 2018, one European and the other belonging to NASA. The European rover is being built by Astrium, part of European defence and aerospace giant EADS, in Stevenage. An orbiter will be sent to Mars in 2016, carrying a craft that the European team will attempt to land on the planet. If that first successful European landing goes to plan, the rover will follow in 2018. The European rover will drill below the surface of the planet, taking samples of rock, testing them for signs of life and beaming back the results. Space exploration requires kit that is small, light, can operate for years without a service, uses very little power and can survive landing intact on Mars.

Technology developed for NASA's Apollo space missions in the 1960s and 70s produced, among many other things, medical CAT scanners, modern trainers, kidney dialysis machines and flame-proof clothing. Professor Mark Sims of Leicester University, is leading the team building the life-marker chip, known as the "pregnancy test", which will be testing samples on Mars for chemicals that indicate life is present or might have been at some time. The terrestrial spin-off of this equipment is a portable testing kit that fits in the palm of your hand but has the equivalent capability of an entire laboratory.

The rover's drill for digging below the surface of Mars is ultra-sonic -- and such devices up until now have required manual tuning. That would clearly be impossible on Mars, so Magna Parva have designed and patented an automatic tuning system for the drill.

"***The space industry is one of the few areas where people are left to invent and experiment all the time,***" said Mr Bowyer. "***Space is 80 pc of our business, and it's the most fun part, no doubt about it. But its all high-risk and very rarely pays for itself, so we always have to be looking for spin-out applications." Note:***

New Life on Earth

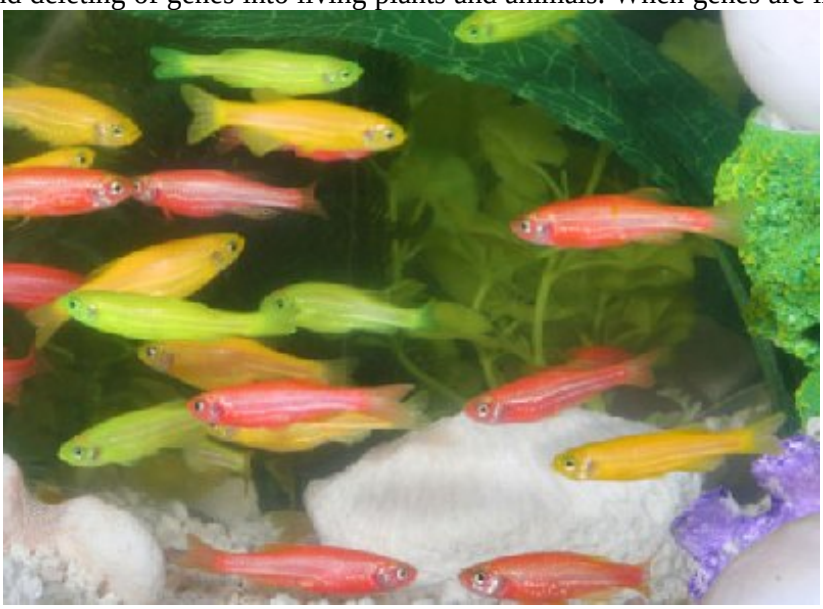
"Francis Crick, the discoverer of DNA, although an atheist published his book "***Life Itself***" which subscribed to the theory of intelligent design, that our universe was not simply the result of a series of chemical accidents. ***Primordial life was shipped to Earth in some sort of spaceships.***

He states, "Life did not evolve first on Earth, a highly advanced civilization became threatened so they devised a way to pass on their existence. They genetically-modified their DNA and sent it out from their planet on bacteria or meteorites with the hope that it would collide with another planet. It did, and that's why we're here." Our DNA was encoded with messages from that other civilization. ***They programmed the molecules so that when we reached a certain level of intelligence, we would be able to access their information, and they could therefore "teach" us about ourselves, and how to progress.***

The Bible refers to giants fourteen times who lived prior to the flood that were called Nephilim, or, as Genesis, Chapter 6, describes them: ***Those Who Have Come Down, from the Heaven to Earth found the Daughters of men fair and mated with them.*** The universal ancient wisdom has provided the location and details of ancient cities for research by archaeologists and anthropologists.

They have discovered a distinct "race" of people who died off in Samaria, during the last several thousand years and were prominent in ancient civilizations in Peru, Samaria, India, and Egypt. There are questions whether they represent a pre-human evolutionary lineage, alien intervention, or some unknown civilization. Aliens are often described as having large heads, Saturday Night Live referred to them as ***cone heads.*** Technically this elongated head is called Dolichocephaloids and belongs to early leaders and rulers. It involves the hypothesis that the technologies and religions of many ancient civilizations were given to them by space travelers who were welcomed as gods and teachers. There is reason to believe many plants, animals and even humans were genetically altered by the early visitors.

We are now catching up to the visitor's technology and changing our world using Genetic modification by inserting and deleting of genes into living plants and animals. When genes are inserted, they usually come from a different species, which is a form of horizontal gene transfer. In nature this can occur when exogenous DNA penetrates the cell membrane for any reason. To do this artificially may require attaching the genes to a virus or just physically inserting the extra DNA into the nucleus of the intended host. Other methods exploit natural forms of gene transfer, such as the ability of Agro bacterium to transfer genetic material to plants, or the ability of lentivirus to transfer genes to animal cells. **We are now genetically engineering plants and animals and making them more resistant to frost damage and insect pests.**



These genetically engineered (GMO) fish have a gene from a jellyfish, encoding a fluorescent protein that gives them their bright coloring. To date the broadest and most controversial application of GMO technology is patent-protected food crops which are resistant to commercial herbicides or are able to produce pesticidal proteins from within the plant, or *stacked trait* seeds, which do both. The largest share of the GMO crops planted globally are

owned by Monsanto with 246 million acres planted in 2007. In the corn market, Monsanto's triple-stack corn -- which combines Roundup Ready 2 weed control technology with YieldGard Corn Borer and YieldGard Rootworm insect control -- is the market leader in the United States. Poor farmers in developing countries are some of the primary users of the new technology. Thanks to Wikipedia

X-37 May Replace the Retiring Shuttle Fleet

The previously Top Secret X-37B is 9 meters long and 4.5 meter wide (29 X 15 feet) and its payload bay is 2.1 by 1.2 meters (7 by 4 feet). The X-37B orbital test vehicle is in Florida, and allegedly will be launched on board an Atlas V rocket on April 19, 2010 at around 10 PMEDT. The vehicle was built at Boeing Phantom Works, based on an orbital and re-entry demonstrator design initially developed by NASA, then handed over to the Pentagon.

It will land like the space shuttle, with the primary landing site at Vandenberg Air Force Base in California. Edwards Air Force Base is the backup landing site. The project is managed by the Air Force Rapid Capabilities Office.

The X-37B's mission is to "demonstrate a reliable, reusable, unmanned space test platform for the United States Air Force," according to a fact sheet put out by the military. "Objectives of the OTV program include space experimentation, risk reduction and concept of operations development for reusable space vehicle technologies."

DARPA, the Defense Advanced Research Projects Agency completed a series of approach and landing drop tests in 2007 of an experimental X-37B vehicle using the White Knight airplane from Scaled Composites as a mothership.

Note: Originally, the vehicle was designed for launch from the payload bay of the Space Shuttle and has likely already been in space. Sources:Spaceflightnow,Wiki,

Sighting In the United States,

AlabamaMetallic Cigar Shaped

JACKSONVILLE -- I was driving home on Highway 204 at around 6:30 PM, on March 31, 2010, when a bright flash of lightning revealed a metal object in the sky. There were no lights on the silver object. The lightning flash lasted two seconds. After it was dark again, I could not see the object, but I slowed down and the lightning flashed again, but this time the object was gone. I am positive about what I saw. It was cigar shaped, but it could have been a classic disk shape, with the middle being thicker than the ends. Because I only saw it briefly, it didn't appear to be moving, just a pretty big cigar hovering about 1/4 mile away. Aircraft are required to have their lights on at night. Thanks to MUFON CMS

Arizona Blimp Size UFO

MESA -- On April 3, 2010, I was outside watching and saw two ball size objects without lights and one possible satellite, and a blimp size UFO at low altitude without lights. During the late afternoon of the same day before the night event, I think I captured on camera an UFO at close range. The blimp size object was an UFO of some sort in my opinion. I first noticed the unknown object without lights less than a mile away. The size of the object is comparable to an extremely large commercial jet, or a Goodyear blimp.

While watching at night, I spotted an object at the altitude jets typically fly. The object came towards me from a high angle so took hand held pictures. I saw a perfect spherical shape in a dull gray color. It did not appear to emit light; however, it did appear to reflect city ambient light.

Update: On April 5, 2010, around 10:04 AM, I shot a photo of this new type of blimp that has wings that looks like a fat commercial jet, but much larger. It may be this is what I have been seeing lately, but I wonder why there are no anti-collision lights on the craft when it flies at night? Thanks to MUFON CMS

Arkansas Flight Observes UFO

LITTLE ROCK -- On January 5, 2010, I was a flight attendant on a commercial flight about 100 miles southwest of Little Rock, Arkansas. I was inside the cockpit talking with the pilot when we both observed a bright oval object, which sent a beam of light to the ground, on a round object. The UFO was amazing as it followed our aircraft at 500 feet for approximately one half hour then suddenly disappeared. We never made a report about this as we feared retribution from our superiors. This information was supplied to investigator William Stephenson of New Jersey MUFON. The witnesses want to remain secret for professional reasons. Thanks to MUFON CMS

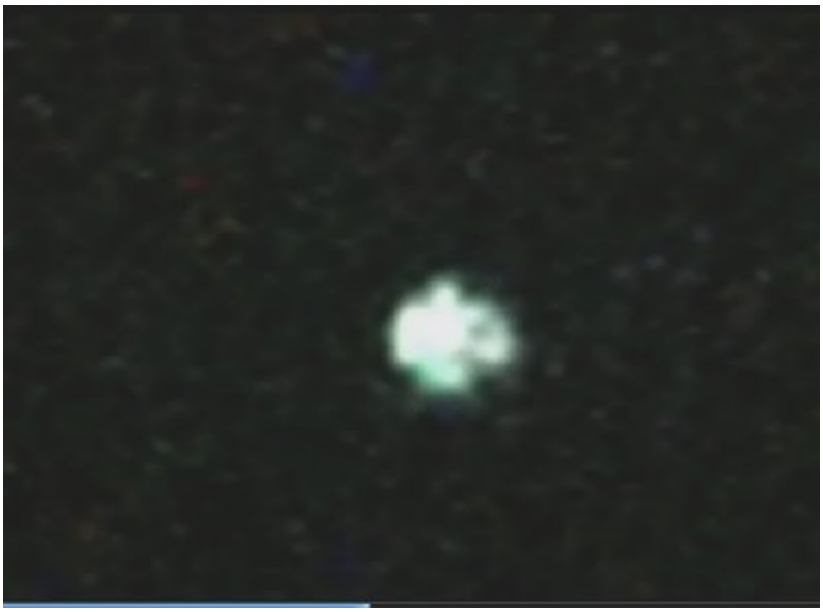
California Video of UFO

LONG BEACH -- The Long Beach Police

filmed this UFO on Christmas Day in 1994. However, no officer has ever commented on the eerie happening in California. The video has now been viewed more than 150,000 times on YouTube. Former Ministry of Defence UFO expert Nick Pope said: ***"It's weird and despite competing theories, it's unresolved.Skeptics say it is space debris burning up in the atmosphere, or a military flare on a parachute, with hot ash coming off it; while believers say it's an alien spacecraft releasing probes."*** Read more: http://www.thesun.co.uk/sol/homepage/news/28 -cop-vid-baffles-experts.html#ixzz0k5U17Xdx

CORONA -- On March 16, 2009, my family and I witnessed a UFO. My Son was looking for the International Space Station (ISS) that was supposed to be visible around dusk. He watched for a while but did not see the ISS, when it got dark he came in but glanced out the window to take one last look and spotted a very small light making very strange patterns and darting at great speeds horizontally and vertically. He ran out the front door screaming a UFO. I called my wife and other kids out and we were just standing there in amazement. After ten minutes, I grabbed my daughters video camera which she never uses, it was still in the box with a dead battery, so I had to plug into the outlet on our porch for power and I started shooting, I had never used that camera before so I was figuring it out as I shot the footage. My daughter has been telling me for several months she had seen a strange looking object several times and would come to get me, but by the time I got there it was gone. Thanks to MUFON CMS**ANTIOCH --** I was taking a video image of an airplane that was flying over Antioch, California this past Sunday, March 28, 2010, in the early PM part of the day. At the 27 second mark of this video and for just one quick frame an unidentified object quickly darts in and then out of the frame. I cannot say for sure what it is, but it does seem to have a very distinct geometrical look to it

Note: The video is out of focus, but does show the object referenced by the witness. The above video has been "trimmed" and slowed down to show the few frames where the object shows up 25 Miles ENE of San Francisco)' William Puckett, Director http://www.ufosnw.com



HUNTINGTON BEACH -- On April 6, 2010, a video was made of a bright flashing bright light with multiple colors and mass variations. The object was stationary on the horizon at 10:30 PM. Thanks to MUFON CMS

Note: Venus and Mercury below and to the right can be seen on the western horizon shortly after sunset. High at the top of the sky is Mars and further east is Saturn.

Florida Flying Oval

29.2206 N 82.9675 W -- I was in the driveway filming random nonsense not far from Cedar Key on the Gulf Coast around 5:30 AM, and saw the light moving very fast and in different directions. I assumed it was just my eyes but it was not. After almost two minutes, it stopped in mid air. I got a picture of it with my camera phone, but it is not very good. It stayed still in the same location for 13 seconds before fading out. P.S. Gwen made me do this -_-" Thanks to MUFON CMS

FERNANDINA BEACH -- On April 1, 2010, I saw large hovering lights covering the ground in my back yard from the sky. Thanks to MUFON CMS

Georgia Unusual Craft

ROSWELL -- On March 28, 2010, the witness saw a craft with one blinking light move across the sky at 9:27 PM. He was convinced that the craft was not a conventional aircraft and was familiar with lights on regular aircraft. He lives near the Atlanta airport. The light moved "back and forth," descended rapidly and disappeared. He saw the object for about 30 seconds. Listen to Witness Report (MP3)

Note: Anyone who may have seen this object is urged to file a report. William Puckett, Director http://www.ufosnw.com

Maryland Triangular Shape

RISING SUN -- My wife and I were outside on April 1, 2010, at 8 PM, and saw a group of geese flying in a triangle formation as they normally do during migration. I noticed each of the individual objects moving amongst themselves as the whole group traveled across the sky above us. The white colored objects were quite visible even in the dark, unlike a bird would be. And when have you ever seen birds migrating at night anyway? Then this triangular shaped group of objects started moving faster and the object just vanished. Whatever it was, it moved that quickly. It was much too close to be a plane and there was no sound. Thanks to MUFON CMS

Missouri Two Oval-Shaped Objects

LIBERTY -- I was driving northwest on 291 Highway when I noticed a white shiny object moving slowly across the sky. At first, I thought it was a large plane, but it had no wings or tail. A beam connected two oval-shaped objects at their centers. As I watched, it stopped and flew backwards, then forward again very quickly, then continued on its slow forward movement. This happened again, and then I lost sight of it. Due to the fast jerky movements backward, then forward again, this could not have been a plane or helicopter. It moved too fast for that. Thanks to MUFON CMS

Nevada Stripe in the Sky

LAS VEGAS -- I was staying at the Luxor Pyramid Hotel that has the giant vertical light beam that they turn on at night. On March 29, 2010, near midnight, I decided to take pictures Vegas from my hotel window. Directly above and far enough up that it appeared above the thin layer of clouds directly to the south of it (and visible with the stars in the attached pictures) was a small "stripe" in the sky about an inch long aligned on a north-to-south axis.

It didn't move over the course of an hour and as the stars "moved" as the Earth rotated, the stripe stayed in the same spot relative the Earth. (It didn't "move" with the stars.) I woke up at about 2:00 AM, and the "stripe" was still there, but was gone at 7:00 AM. It did not reappear the next night. Thanks to MUFON CMS

Ohio Maneuvering Light

YOUNGSTOWN -- On April 4, 2010, during a skywatch I filmed a bright shiny gold star moving up through the trees and slowly above. I honestly thought it was a satellite, but I filmed it anyway. The object clearly on film hovers for an extended time before very slowly making its way toward where I was standing. I was initially filming under infrared night vision on my Sony HDD DCR SR40 Handycam. As the object made its way closer moving west, I shut off the infrared night vision and recorded using regular night vision. Zooming in on the object I could see two square strobing white lights. No FAA red or green blinking navigation lights, and no nose light on the craft. The object made a strange and distorted muffled sound like a jet. The object flew over my vantage point and I continued to film as it flew out of sight. Youtube Links:http://www.youtube.com/watch?v=fEsvcrBe4J8 http://www.youtube.com/watch?v=uA8XVAXo_2w Thanks to MUFON CMS

Pennsylvania Cylinder

BENSALEM TOWNSHIP -- A bright shining yellow light was observed at an altitude of 1,000 feet in the northwest sky on July 26, 2009, at 8:30 PM. The light was very similar in size and brightness to an aircraft landing light. The light flew towards me at the speed of a small commercial jet on landing approach. No wings, tail section, landing gear or running lights were visible and there was no sound. In a few seconds the bright light changed into orange flames, then a ball of fire. As it flew overhead, the flames died down and were on the leading surface of the object.

My wife joined me as we watched a black silhouette emerge from behind a tree and was gaining altitude at a slight incline. At the base of a towering cumulus cloud, the object nosed up and climbed to the crest then nosed over to a horizontal attitude and disappeared from sight over the cloud, at 15,000 feet.

The entire episode lasted about three minutes. The speed of the object appeared constant at about 400 mph. The size estimated to be that of a utility van. Weather was warm with thunderstorms to the west. William Puckett, Director http://www.ufosnw.com

Tennessee Colorful Sky Objects

MEMPHIS -- On April 5, 2010, and for the last week I have been seeing massive colorful objects. I have the feeling they're watching over me and revealing how great our God is. I have to say it makes complete sense to what was said in Ezekiel. So everyone knows, Jesus is the bright morning star! Thanks to MUFON CMS

Texas Circular Object

ARLINGTON -- Around 9 PM, on March 29, 2010, I took my dogs out and saw the usual air traffic from Dallas FW Airport and saw a flash. I thought it was a plane with it's FAA lights blinking, but as I watched the circular object suddenly split into two craft, that flew in different directions. One object went north in an erratic flight while the other stayed on its original east path in a steady pattern. The two objects were identical in size, shape and color. The moon was out but not emitting allot of light. I've never seen anything like this before. Thanks to MUFON CMS

Virginia Gold Looking Light

On the night of March 30, 2010, my boyfriend and I experienced an event that we can only explain as being a UFO. My boyfriend came to pick me up at 10 PM, to go to his home in a neighboring town. We drove until we were in front of our local high school and saw a gold looking light that we noticed was slowly moving closer. We were freaking out because we thought it would crash into our little town. We could not take our eyes away from

this strange light that kept getting bigger and brighter. I noticed it had bright rings around it. The light eventually stopped in mid-air and began moving back farther into the sky and eventually vanished. My boyfriend and I being skeptics can still not rap our mind around anything, but the light had to be a UFO. Thanks to MUFON CMS

Worldwide Sightings

Argentina Blue Orb

BUENOS AIRES -- On March 12, 2010, I was just watching TV when I noticed a blue orb hovering. I quickly turned to my boyfriend to tell him, but when we looked again it was gone. The light was the size of the full moon, but blue or light blue. The orb was clearly visible, I'm sure others should have seen it. Thanks to Brian Vike http://www.sightings.com

Australia UFOs Spotted over Evans Head

Strange lights spotted over Evans Head at the weekend have been listed as a possible UFO sighting according to Digby Hildreth. The sighting is one of 'a constant stream' of such events recorded as 'worthwhile' by UFO Research Queensland, which monitors the skies from New Guinea to northern New South Wales. There have been a high incidence of sightings in the area. Tino Pezzimenti, said the Evans Head sighting occurred when two men were walking back from the pub on Saturday night. One of the men, who swore he was completely sober, had reported seeing two 'moon-like objects' in the sky. "***They were of the same size and brightness as the crescent Moon, but vertical," Mr Pezzimenti said. "A third appeared and they all started moving erratically, zigzagging in the air. "It was at 10.30 PM, so it could not have been Venus,***" he said.

"***It's something we cannot explain, but many UFOs have been reported as behaving in this way -- erratically, and making sudden right-angled turns without slowing down."***

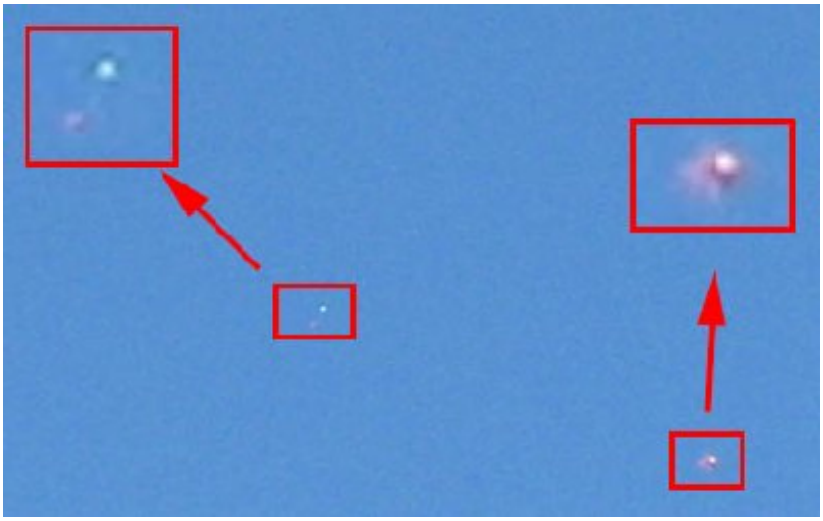
Australia has been something of a hotspot for UFO sightings in the past with 200 reported this year. **) Thanks to inexplicata.**

Canada Sightings

ONTARIO -- I was sitting at my computer when I saw a bright green light outside my window. I have seen them before, but this time there were ten lights and four were forming an upside down three-dimensional pyramid. It was moving slowly and its lights got brighter and then dimmer.

The pyramid's lights were easy to see but the other six faded. One light over the formation was larger than the others and glowing bright orange from 9:30 until 11:30 PM, when all but one disappeared. They

come back some nights. Thanks to MUFON Thanks to MUFON CMS



SCARBOROUGH -- On Friday, March 26, 2010, while sitting at a traffic light at 8:04 AM, at Kennedy Road I noticed two odd aerial anomalies flying high in the southwest sky. One was a rusty red in color that appeared to have size, and the other one being a bright white light at a farther distance. I immediately grabbed my camera and took nine pictures. These anomalies were heading south towards Lake Ontario about the speed of a Cessna aircraft. I observed that traffic behind me moved quite slowly after the light changed.

Note: The photo appears to be the original as output from the witness's camera. The witness sent four photos and all of the photos show the three strange objects. The photos were taken with Canon PowerShot SD890 IS 10 megapixels digital camera. Thanks to William Puckett, Director http://www.ufosnw.com

China Daylight UFO Footage

NINGBO -- Michael Cohen writes, ***"An incredible UFO sighting was allegedly filmed earlier this month in the port city of during daylight hours.*** Students at Wan Li University saw metallic, spinning flying saucer hovering above the campus. One witness managed to film the UFO as it zooms off. The debate is this video computer graphics or a genuine encounter with a UFO? The sound track is convincing. Thanks to Michael Cohen http://www.allnewsweb.com/page1199999341.php

Greece Olympic Airways Flight Spots UFO

ATHENS -- Tapes have been released between Olympic Airlines respected pilots - one bound for Britain - and airport control tower staff in the skies over Athens. But, the recordings were hushed up by the Greek authorities who claimed what the pilots saw was just the planet Venus. The incident was seen by staff on board three jets on February 10, 2009.

The official aviation authority report - leaked to the Greek media - has only just been made public. The report says the captain of Olympic Airways flight 266 from Athens to London spotted an extremely unusual object moving erratically to the west of Athens. *The object was star-like in appearance however much brighter and larger with a constantly shifting shape.* Meanwhile the captains of Olympic Airways flights 730 to Kos and 700 to Rhodes reported the **SAME THING**.

The sighting was then confirmed by Athens Airport

control tower, whose employees observed the object moving towards Karystos, a small town on the Greek island of Euboea. At this point the Greek Air Force was contacted. Air force chiefs confirmed they too were visually monitoring the object travelling at incredible speed from their radar station at the top of Parintha Mountain near Athens. The air force radar station later described the UFO as large, of an unusual shape and very bright -- and staff were also requested to photograph the craft. Two F-16s were then sent up to intercept the UFO. The object then shot off at incredible speed skyward and the jets failed to indentify anything. Both staff at the Athens Airport and the Parintha Mountain Air Force Radar Unit later confirmed they clearly observed the object.
http://www.thesun.co.uk/sol/homepage/news/ufos/article2219187.ece#ixzz0kMLZlOPd

New Zealand Worm Photo

AUCKLAND -- This UFO photo was taken on 29 March 2010, at 11:54 AM. It shows an invisible beige colored worm shaped object near a cloud. This object has often been seen at night. Add this attached picture to case 18817 file (long term visitation). More details at: [cms/tg/pid] Thanks to MUFON CMS

Nicaragua Two White Columns

JINOTEGA -- On March 19, 2010, this photo was taken in the countryside as one of numerous photos for a project on potable water. When arriving at office the photos were displayed and this rare object was discovered. None of the other photos contain a similar object. Experts are examining the photo on the strange rays of light that go almost parallel and seem to leave a trail of smoke Thanks to MUFON CMS

UK/Sightings England

FRENCHAY -- Two witnesses driving down the M32 near Bristol at 8:20 PM, on February 27, 2010. My 5 year old daughter turned to me and said, "***Look at the flying saucers in the sky***!" I looked up to my left and saw about ten large orange orbs about 1,000 feet up widely spaced in a random pattern floating across the sky heading east. Definitely not the usual subjects such as fireworks and streetlights. Email Brian Vike with your sighting report: sighting@telus.net Jeff Rense's Sightings.com website: http://www.sightings.com

SHREWSBURY -- Farmers claim to have witnessed sheep being "lasered" by unidentified light from UFOs. They have linked the unexplained incidents, where sheep's brains and eyes were removed, to the mysterious orange lights in the sky. They have found sheep with neat holes in their heads while their brains and other internal organs were removed. Other animals have lost eyes or had their flesh "carefully stripped away", usually on the left side.

Phil Hoyle, 53, who has spent almost a decade investigating how the livestock have died said, ***"The UFOs were found to have roamed a 50-mile corridor between Shrewsbury and Powys."*** Mr Hoyle and 15 members of the Animal Pathology Field Unit, claim they witnessed UFOs last month while working during the night at a Welsh hill farm near Radnor Forest. "***The technology involved in these attacks is frightening,"*** he told The Sun. "***These lights and spheres are clearly not ours. "They are built by technology and intelligence that's not from here."*** He added***: "For a short while it looked more like a Star Wars battle."***

Next day farmers were interviewed and "***all but one had some type of unusual disappearance of animals or deaths with strange injuries***", he told the paper. http://www.telegraph.co.uk

Northern Ireland Orange Lights

DERRY -- A line of about 7 to 10 orange lights were seen on March 6, 2010, at 12:40 AM, that flew at the same speed in a line and remained spaced apart. I ran upstairs to see if I could get a better view, but all but one disappeared. I followed it as it was behind the rest. It flickered slightly, and then just disappeared. The area I spotted them is a UFO hotspot with people claiming to have seen such lights in the past. Thanks to Brian Vike Rense's Sightings.com website: http://www.sightings.com

Scotland Footage of Light

PENTLAND HILLS MIDLOTHIAN -- Four witnesses spotted a big light on the Pentland Hills on March 6, 2010, at around 6.30 PM. The following night, a light flew over Gorebridge at around 7:30 PM. http://www.youtube.com/watch?v=m86MLrNHYWo

Brian Vike comment: There is a light that can be seen just below the top of the mountain, not sure what that is. In addition, what looks like a formation of lights is a reflection off something around the witness. Email Brian Vike: sighting@telus.net Thanks to Jeff Rense's Sightings.com website: http://www.sightings.com

UK/Wales

I was on my way to Wales to walk up Mount Snowdon, of the Carneddau Mountains on July 24, 2009. The witness responded, "***I took a few pictures and found a disc shaped object in one when I got home."***

Note: The original photo does show a raindrop on the window, of the vehicle, on the left side of the digital photo but the two objects in the cropped photo are not rain drops. Thanks to UFO Casebook and Ken Pfeifer MUFON N.J. http://www.worldufophotos.org

WILTSHIRE, ENGLAND -- I was looking at Bing maps last night to see if I could find crop circles and noticed something very peculiar over Wiltshire, Bing marker B4003. It appears to be a craft de-materializing, or materializing. There seems to be an object that flashes then explodes into a flash, and then it is gone. I noticed you can see through the object and see the field pattern below. I also found a crop circle about 5 miles to the east of this anomaly.

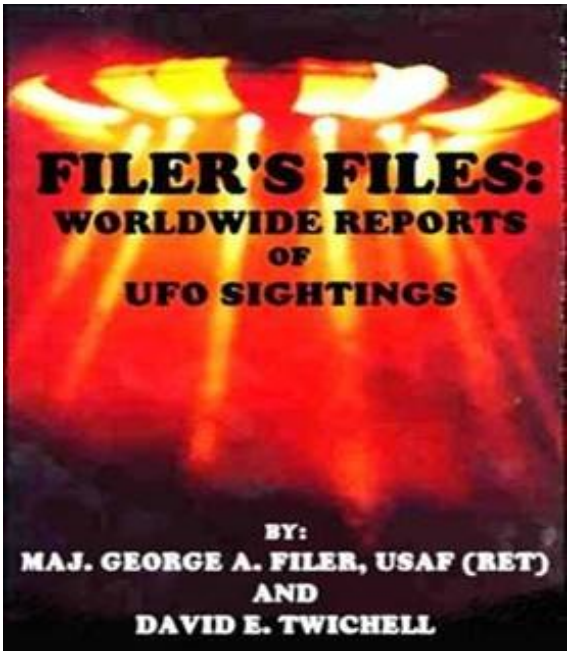
DONCASTER-- On April 4, 2010, I saw a red light outside that I thought was a helicopter but there was no sound. Then a few more of the same type objects flew over the houses. I ran in the house got the camera, loaded the batteries, quick then went back out and got some pictures of the lights. You need to zoom in to see them. They eventually just went up into the sky and disappeared; they were going slow, it all happened within a few minutes. Thanks to MUFON CMS

LINCOLN -- Driving past a sports field at 6.20 p.m., I saw two low very large bright orange lights flying across the sky, getting close together then separating on February 14, 2010. They zig-zagged before moving off in a southwesterly direction. One of the lights emitted an orange laser type beam. I stopped my car and watched them move across the sky before they went up behind some clouds. The objects disappeared but the orange glow was still visible in the clouds. There was no audible sound coming from them.

Two years ago my friend and I had a similar sighting. Thanks to Brian Vike and Jeff Rense's Sightings.com website: http://www.sightings.com

It is Time to Subscribe

I am offering twelve years of Filer's Files on a DVD with hundreds of photographs and sightings, or my book on DVD. For a donation of $50 that includes this year's subscription. **Please include your e-mail address and mailing address.** *I need your help.* It is very time consuming and expensive to research and prepare the files.



Only a few people who have enjoyed the files for years have chosen to provide a donation. I would greatly appreciate your contributions to help sustain my production, reporting and research efforts. I also want to thank everyone who has sent their UFO sightings, without your help there would be no files.

I want to thank the few people who have sent $25.00 and more for donations to Filer's Files for this year. When you send in a subscription, please include your latest E-mail address. Do not miss the latest images of UFOs from Earth and Mars. Aim concerned about UFOs, and their impact on the Earth. Sign me up right now for Filer's Files. In addition, I can keep all the reports I have received — and receive a pro-rated refund on the unused portion of my subscription.

Send check or money order to:

George Filer, 222 Jackson Road, Medford, NJ 08055.

You can also go Pay Pal to: https://www.paypal.com/cgi-bin/webscr Sign up for Pay Pal and my email is Majorstar@verizon.net

Become a MUFON member today! Benefits of membership include a subscription to the monthly UFO Journal which contains current investigations, sightings reports, articles by world-renowned researchers and more. To join now, click here. www.mufon.com

Filer's Files is copyrighted 2010 by George A. Filer, all rights reserved. Readers may post the COMPLETE files on their Web Sites if they credit the newsletter and its editor by name, and list the date of issue. These reports and comments are not necessarily the OFFICIAL MUFON viewpoint. Send your letters to Majorstar@verizon.net. Sending mail automatically grants permission for us to publish and use your name. Please state if you wish to keep your name or e-mail confidential. CAUTION MOST OF THESE ARE INITIAL REPORTS AND REQUIRE FURTHER INVESTIGATION. If you wish to stop receiving these files please send a message to Majorstar@verizon.net

God Bless Our Troops and Georgie Filer and Eddie Pedrick my grandsons who drowned.
